

THE DOMINICAN FATHERS NAGPUR SOCIETY

Seminary Hill, Nagpur – 440 006, M.S. India
Public Trust Regn. No. F-3610 (N)

Activity Report 2021- 2022

Dominican Fathers Nagpur Society, a registered charitable society, organised many social, educational, charitable and environmental activities in the year 2021 – 2022. The activities were carried out in different units of the Society with the aim of reaching out to many people in need. Following are the activities organised by the Society:

1. College Studies

As we have this year 15 College students who are studying in SFS College and Hislop College with Bachelor of Arts and Bachelors of Commerce and bachelor of Science. We the Dominican fathers undertake their complete educational expenses like their college Fees, books, stationary, uniform etc., and all that is necessary for their education. Since last couple of years due to Covid there were no physical classes were held and they had to do online studies we had buy certain equipment to provide the better internet connections and better facilities to do research for the classes new computers were bought. And they were taught about the keeping the house and surroundings clean and be responsible and to have belongingness towards ones own community.

2. Library

Since previous year the library had been upgraded with new software's and new functions, this year we were mainly purchasing some new books and magazines and updating it in the computer so that it will be easy accessible to all the people who want to use it. We see many people from different parts of the city come to the library to search for the various materials that itself shows

that library is useful.

3. Educational Aid

As we are the charitable society we do help the people who are in need and we see everyday there are people knocking our doors and looking for our help. We do reach out to the people who are really in need, so that there will not be any misuse of funds which we give and we ask for the educational bills as proof.

4. 4. Samvad Bhavan Balwadi at Ganganagar

As we have been running this Balwadi for the poor children and marginalized children and last two years due to corona in the world and in the country, we could not have physical classes, so the building which is used for the children has weakened, so we have decided to renovate it this year and use for the children from next year onwards and as the works are being done.

While we do not want to compromise with the safety of the children at all so before any disaster could happen, we are doing renovation works. We are also continuing to pay the salaries of the teacher and the helper as they

undergrow some kind of training with us by learning the language well as well as keeping the school premises clean.

5. Charitable Works

We being the charitable society take up many charitable deeds like distribution of ration to the poor and needy and pay the medical expenses of the people who seek our assistance. Its not just the material help we also give guidance to many people and counselling to various age groups. Many people feel free to approach us here and all the service we do here is charity and we don't charge anyone of them.

We also provide food for the poor who come to us daily basis and especially we feed the people for different occasions in huge numbers.

6. Environmental Care:

We realize the importance of nature and we strive to protect it as much as we can. Every year we do plantation and water them throughout the year.

We also make an effort to clean the areas by collecting the plastic and dispose them through the proper channels. We maintain the healthy environment in and around the campus so that the people who come to us for various needs really feel and experience the pure air in our area. We also employ the people to look after the gardens well by regularly monitoring and maintaining it well.

7. Training and other Programs for Different ages

We are also delighted to do various training programs in our society like women empowerment, child protection program, harmony among the religions and various groups through seminars and paper presentations and opportunities for the skill development etc for different ages and many are willingly taking part in them and learn the skills.

At our other houses we do accommodate people who come from different places who seek peace of mind and spiritual nourishment and the youth empowerment and need of youth to take up the challenges of the present society etc.
